

Small Area Health
Statistics Unit

Workshop FSP-USP/Imperial College – FAPESP collaboration

Using big data for small area epidemiological studies: developing a new UK-Brazil partnership

5TH DECEMBER 2018 – Sala E-lap - Prédio da Biblioteca - 2^o andar

9.00-9.30 Introduction and welcome

COFFEE BREAK

10.00-12.30 FSP-USP to present our department and work

- Summary of available datasets
- Published work
- Current projects
- Grant applications, incl. fellowships

LUNCH

SAHSU to present their department and work

13.30-14.00 Overview of SAHSU and available datasets

Aina Roca Barceló

14.00-14.30 Disease mapping, including Atlas

Aina Roca Barceló

14.30-15.30 Rapid Inquiry Facility 4.0 (RIF), including demo

Frédéric B. Piel

15.30-16.00 Space time surveillance, including cluster detection

Frédéric B. Piel

COFFEE BREAK

16.30-17.30 Current and published work of interest for this collaboration (e.g. incinerators, aircraft noise; environmental inequalities)

Aina Roca Barceló

Aina Roca Barceló

Research Assistant in Epidemiology
Small Area Health Statistics Unit (SAHSU)

Frédéric B. Piel

Lecturer in Epidemiology & Training Programme Coordinator, MRC-PHE Centre for the Environment & Health, Department of Epidemiology & Biostatistics, School of Public Health, Imperial College
